

UBS

ULTIMATE BAGGING SYSTEM

INTRODUCING

Exceptional Bagging Performance Even on Lush Wet Lawns

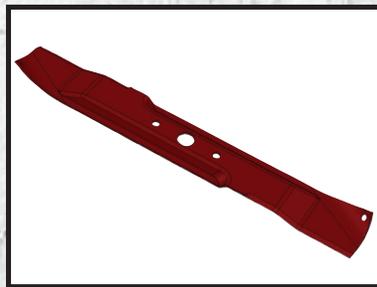

GRASS BAG
(PN 201192-1)

Large capacity soft bottom bag features an open weave material on the vented area for maximized air flow. The top mounted vent is located in the cleanest part of the bag, with an additional layer of material to provide enhanced dust protection and making it easy to clean and maintain. PLUS, the bag packs full even in wet grass!

The NEW Ultimate Bagging System (UBS) fits all 21" Ybravo mowers.

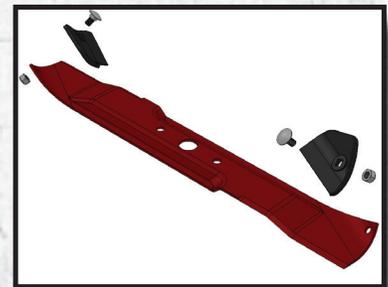

KIT PART NUMBER: 201199-1

(Kit includes grass bag, standard blade and wing tips)

STANDARD BLADE
(PN 201196-2)

Designed to work in conjunction with the high vacuum deck (blade is pre-drilled for Wing Tips)

WING TIPS
(PN 201193-1)

Provides substantially increased vacuum and bagging performance, are extremely durable and easy to install and remove

BRAVO 21

"Deep-Draw" cutting deck combined with a rolled lip bottom edge provides superior vacuum performance
